Contemporary natural surfaces

# The natural choice for your home Spectra Solid-Wood

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

Naturally enduring, naturally hygienic,  
naturally adaptable.

Not only do Spectra Solid-Wood work surfaces look stunning, they have proven antibacterial properties making them an ideal choice for your kitchen or bathroom. Furthermore, while modern synthetic laminates and plastics may denature, warp or lose colour over time, timber surfaces look better the longer you have them.

They're versatile too, equally at home in a modern city apartment or rustic farmhouse. Or whether partnered with brushed steel, gleaming chrome or antique brass.

Want to know more? See pages 10 and 22 for full technical details.

## Work surfaces

[spectraworks-surfaces.co.uk](http://spectraworks-surfaces.co.uk)

As the most hard wearing surface in your home, it's essential your kitchen worktop be strong and resilient. Of course, it needs to look the part too. And offer long-term value and long-lasting style. It's why we created the Spectra Solid-Wood range of work surfaces.

Made of hygienic, highly durable waterproofed timbers, every product in the range naturally matures over time to reveal richer colours that will continually enhance your kitchen.

A choice of four classic solid woods is available, including striking oak, warm beech and the rich, darker tone of walnut. Furthermore, curved corners can easily be achieved thanks to the great versatility of timber.

### Work surface dimensions

#### European Oak and European Walnut

## Breakfast bar and island units

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

More room to entertain friends and family. An extra surface for food prep. A handy homework base. Whatever your reason for choosing a Spectra Solid-Wood breakfast bar area and island unit, you can be confident it will beautifully complement your main kitchen work surfaces.

Available in the same four classic solid woods as the main work surface range, they can also be curved to follow your existing cabinet design. Matching gable end panels can also be fitted to provide a stylish finishing touch to the heart of your home.

## Upstands

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

When investing in a new kitchen, it's only natural you want to enjoy the benefits for years to come. That's where upstands can make a real difference. They protect your walls from unwanted damage, while also providing a stylish and hygienic barrier. Best of all, they're easy to wipe clean and quick to install.

To ensure a flawless continuation between surface and wall, Spectra Solid-Wood upstands are available in the same four classic solid woods as the main work surface range. They're also easy to oil and maintain, ensuring they mature and naturally deepen in colour at the same rate as your main surfaces.

# The story behind the surface

## Proven quality

[spectraworks-surfaces.co.uk](http://spectraworks-surfaces.co.uk)

From tree felling to final installation, our single-minded vision is to deliver kitchen work surfaces of exceptional quality, strength and visual appeal. No exceptions, no excuses.

At every stage of manufacturing we draw on both our traditional craft skills and the latest manufacturing techniques. We begin by selecting timber from responsible forests, which is then carefully seasoned to reduce moisture. This process naturally strengthens the wood and makes installation easier.

Then it's time to create our work surfaces from precisely manufactured solid wood blocks (staves) of seasoned timber. The staves are bonded together with finger joints and a specialist adhesive. The result? A beautifully strong surface with square cut ends that can either be retained for a contemporary feel, or machined to your own choice of profile. The decision, as ever, is yours.

# Forever forward-thinking

## Sustainability

[spectraworks-surfaces.co.uk](http://spectraworks-surfaces.co.uk)

Spectra craftspeople give as much thought to sustainability as aesthetics. Always have, always will. After all, good forest management isn't just vital to ensuring future generations can enjoy our woods and forests. Our very industry relies on it.

It's why all our timber is certified in accordance with the rules of the Forest Stewardship Council®. What's more, the use of solid wood staves in the production of Spectra Solid-Wood work surfaces ensures that we maximize the amount of wood that's used from the tree.

# Natural born thrillers

## Spectra Solid-Wood collection

[spectraworks-surfaces.co.uk](http://spectraworks-surfaces.co.uk)

Offering enduring quality and timeless style, Spectra Solid-Wood work surfaces are a natural product that will slowly mature to a richer, deeper colour.

Four distinctly different solid wood species are available in the range, which you can view in closer detail on the following pages.

EUROPEAN  
OAK  
Scale 1:1

# Raw power European Oak

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

Offering exceptional natural strength and hardness, oak has long been considered the material of choice for fine furniture makers.

It's a view shared by our craftspeople, who carefully colour match staves to create a consistent tone across the surface. A tone that will naturally deepen to perfection over time.

RUSTIC  
OAK  
Scale 1:1

# Different by design

## Rustic Oak

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

Our Rustic Oak work surfaces are the natural choice if you're looking for a wood grain full of character and colour variety.

Providing the same signature strength and toughness as our European Oak work surfaces, the rustic finish is created by using contrasting staves.

RUSTIC  
BEECH  
Scale 1:1

# Warm welcome

## Rustic Beech

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

Add an invitingly warm tone  
to your kitchen with our  
Rustic Beech work surfaces.

The staves have been carefully seasoned to produce a variety of subtle colours that complement almost any kitchen scheme, while also providing the timeless beauty and rustic charm that only wood provides.

# Ingrained style

## European Walnut

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

The naturally rich, dark tone of walnut adds instant standout to any kitchen, which is why it's now the go-to grain for many homeowners.

This tightly grained timber delivers impressive strength and style, ensuring you'll appreciate its striking appearance for years. An appearance that's further enhanced thanks to the carefully chosen, colour-matched staves.

## Time well spent

### Protecting your surface

spectraworksurfaces.co.uk

What is it that attracts so many to wooden surfaces? For some it's strength. For others it's the natural warmth. For many however, it's the fact that wooden surfaces slowly mature to a richer colour over time.

However, to enjoy the benefits of this versatile material for years to come does require a little regular maintenance.

That's where Spectra preserving oil comes in. Simply apply the oil to your work surface with a clean cloth every two or three months to enhance it with a richer, darker finish. It really is that simple. What's more, oiled surfaces are not only easier to keep clean, they're more resistant to water damage too.
