Remarkable style, remarkably thin

Spectra Slim-Edge

spectraworksurfaces.co.uk

Great design rarely shouts, but rather quietly commands. Such is the case with Spectra Slim-Edge worktops. Quick to install and impossible to ignore, they provide the perfect option for contemporary kitchens and utility areas.

Why choose Slim-Edge?

Stunning appearance of natural stone or marble without the heavy price tag.

Impressive impact and abrasion resistance thanks to its solid construction.

Completely waterproof, enabling you to integrate with stylish drainer grooves and sleek undermounted sinks.

Hygienic design ensures liquids can be easily wiped away without any surface absorption, greatly reducing the growth of bacteria.

Quicker and easier to install than real stone or marble products, Slim-Edge doesn't require any time-consuming surveys and can be installed with regular woodworking tools.

Ready for action

Worktops

spectraworksurfaces.co.uk

Spectra Slim-Edge worktops aren't simply designed to catch the eye. They're designed to be used. Day in, day out. It's why they're made of durable, waterproof materials that can withstand both the hottest kitchens and wettest bathrooms.

Hardworking by design

Save money by installing an inset sink and separate drainer or splash out on a sleek undermounted sink fitted with integrated drainer grooves.

Slim-Edge worktops are designed to perfectly integrate all your kitchen appliances.

Hobs can easily be fitted into Slim-Edge worktops with a pan drawer below. And a single oven can be fitted with a filler panel below.

Worktop dimensions:

3050mm x 650mm x 12mm

Entertainment centre

Breakfast bar and island surfaces

spectraworks-surfaces.co.uk

With the addition of a Spectra Slim-Edge breakfast bar area and island surface, you'll have more space than ever to prepare food and entertain your family and friends in the heart of your home.

Thoughtful by design

Thanks to Slim-Edge's solid core, curved corners can be formed to follow your existing cabinet design, creating a seamless design.

The colour of the solid core of each décor has been chosen to perfectly complement the surface décor.

Slim-Edge breakfast bar and island surfaces are available in the same matching 12 décors as the main worktops (see page 15 for details).

Breakfast bar and island dimensions:

3050mm x 950mm x 12mm

Every angle covered

Splashbacks and upstands

spectraworksurfaces.co.uk

In addition to providing a stylish and hygienic barrier between your walls and worktops, splashbacks and upstands are quick to install and easy to wipe clean.

Practical by design

A more cost-effective and hygienic alternative to tiles, splashbacks and upstands share the exact same physical properties as Slim-Edge worktops, breakfast bars and islands.

Splashbacks and upstands are available in the same 12 décors as the main worktop range to ensure a seamless colour match between surface and wall.

Upstand dimensions:

3050mm x 95mm x 12mm

Splashback dimensions:

3050mm x 650mm x 12mm

GREY SHUTTERED CONCRETE (WORKTOPS) MATT

WHITE ITALIAN MARBLE (ISLAND UNIT) MATT

We understand a great deal of thought goes into designing your perfect kitchen. From the choice of cabinets and flooring, to the style of sink and tap, it's important everything fits together and colour matches perfectly.

With this in mind, we've developed Spectra Slim-Edge so it can be used in a number of ways within your kitchen.

1. Worktops

Sinks, taps and drainers can be installed into the worktop, while appliances can be installed below. As the most used surface in the kitchen, the décor you choose for the worktops will often drive all other colour decisions.

2. Breakfast bar and island units

Effortlessly expand the kitchen with a matching breakfast bar and island unit. Want a curved unit? Or something completely original? Just ask your designer.

3. Splashbacks

Easy to install and maintain, matching Slim-Edge splashbacks are a cost-effective and hygienic alternative to tiles. In addition to creating a seamless look, splashbacks can also be used to create a distinctive feature wall.

4. Upstands

Easy to clean, quick to install and highly cost-effective, matching upstands create a stylish barrier in your kitchen.

5. Windowsills

Slim-Edge provides a distinctly more interesting alternative to traditional white-painted or UPVC windowsills. It's also a breeze to wipe clean.

6. Shelving

If you're looking for design uniformity, create a set of matching shelves from the same materials as the worktops.

7. Curved shapes

Curves are a great way to create a natural design flow through your kitchen, however you can have your worktops and breakfast bars cut to whatever shape you desire.

The devil's in the detail

The hob has been fitted neatly within the Spectra Slim-Edge Grey Shuttered Concrete worktop. Splashbacks and upstands share the same décor and have been used together to fully protect the walls from splashes. To complete the modern look, the splashback behind the hob reaches the full height of the ceiling.

An undermounted stainless steel sink has been installed with waterproof drainer grooves carved seamlessly within the worktop surface. Further visual flourishes include the curved worktop that perfectly follows the shape of the cabinets and the upstand which has been fitted within the windowsill.

Innovation comes naturally

Authentic textures

spectraworksurfaces.co.uk

We believe the way a worktop feels is just as important as the way it looks. It's why we've applied four distinctive textures across the Spectra Slim-Edge range to give each of the twelve décors a highly natural feel.

Slate

Highlighted by an embossed matt finish, Slate offers a deeply textured finish.

Nature

This texture provides a subtle satin feel, suggesting the raw sensation of natural stone.

Matt

Providing a cool and smooth texture, matt evokes the feel of fully finished marble.

Wood

Providing a wood grain texture within a matt surface, this option ingeniously creates the effect of natural wood.

To optimise functionality, every Spectra Slim-Edge worktop, breakfast bar and island surface features the same stylish décor on both sides. The coloured edges of each décor are also shown. Please note, we have price bands A, B and C, where A is the lowest price and C is the highest price. This is due to different levels of décor and core colour sophistication.
