## Spectra Slim-Edge

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

---

Great design rarely shouts, but rather quietly commands. Such is the case with Spectra Slim-Edge worktops. Quick to install and impossible to ignore, they provide the perfect option for contemporary kitchens and utility areas.

### Why choose Slim-Edge?

**Stunning appearance** of natural stone or marble without the heavy price tag.

**Impressive impact and abrasion resistance** thanks to its solid construction.

**Completely waterproof**, enabling you to integrate with stylish drainer grooves and sleek undermounted sinks.

**Hygienic design** ensures liquids can be easily wiped away without any surface absorption, greatly reducing the growth of bacteria.

**Quicker and easier to install** than real stone or marble products, Slim-Edge doesn't require any time-consuming surveys and can be installed with regular woodworking tools.

# Ready for action

## Worktops

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

---

Spectra Slim-Edge worktops aren't simply designed to catch the eye. They're designed to be used. Day in, day out. It's why they're made of durable, waterproof materials that can withstand both the hottest kitchens and wettest bathrooms.

### Hardworking by design

Save money by installing an inset sink and separate drainer or splash out on a sleek undermounted sink fitted with integrated drainer grooves.

Slim-Edge worktops are designed to perfectly integrate all your kitchen appliances.

Hobs can easily be fitted into Slim-Edge worktops with a pan drawer below.  
And a single oven can be fitted with a filler panel below.

### Worktop dimensions:

3050mm x 650mm x 12mm

## Breakfast bars and island units

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

---

With the addition of a Spectra Slim-Edge breakfast bar or island unit, you'll have more space than ever to prepare food and entertain your family and friends in the heart of your home.

### Thoughtful by design

Thanks to Slim-Edge's solid core, curved corners can be formed to follow your existing cabinet design, creating a seamless design.

The colour of the solid core of each décor has been chosen to perfectly complement the surface décor.

Slim-Edge breakfast bars and island units are available in the same matching 18 décors as the main worktops (see pages 14-15 for details).

### Breakfast bar and island unit dimensions:

## Splashbacks and upstands

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

---

In addition to providing a stylish and hygienic barrier between your walls and worktops, splashbacks and upstands are quick to install and easy to wipe clean.

### Practical by design

A more cost-effective and hygienic alternative to tiles, splashbacks and upstands share the exact same physical properties as Slim-Edge worktops, breakfast bars and island units.

Splashbacks and upstands are available in the same 18 décors as the main worktop range to ensure a seamless colour match between surface and wall.

### Splashback dimensions:

3050mm x 650mm x 12mm

3050mm x 950mm x 12mm

### Upstand dimensions:

3050mm x 95mm x 12mm

A great deal of very careful thought goes into designing a perfect kitchen. From the choice of cabinets and flooring, to the style of sink and tap, it's important everything fits together and colour matches perfectly.

**With this in mind, we've developed Spectra Slim-Edge so it can be used in a number of ways within your kitchen.**

### **1. Worktops**

Sinks, taps and drainers can be installed into the worktop, while appliances can be installed below. As the most used surface in the kitchen, the décor you choose for the worktops will often drive all other colour decisions.

### **2. Breakfast bar and island units**

Effortlessly expand the kitchen with a breakfast bar or an island unit, choosing either a matching or complementary décor. Want a curved unit? Or something completely original? Just ask your designer.

### **3. Splashbacks**

Easy to install and maintain, matching Slim-Edge splashbacks are a cost-effective and hygienic alternative to tiles. In addition to creating a seamless look, splashbacks can also be used to create a distinctive feature wall.

### **4. Upstands**

Easy to clean, quick to install and highly cost-effective, matching upstands create a stylish barrier in your kitchen.

### **5. Windowsills**

Slim-Edge provides a distinctly more interesting alternative to traditional white-painted or UPVC windowsills. It's also a breeze to wipe clean.

### **6. Shelving**

If you're looking for design uniformity, create a set of matching shelves from the same materials as the worktops.

### **7. Curved shapes**

Curves are a great way to create a natural design flow through your kitchen, however you can have your worktops and breakfast bars cut to whatever shape you desire.

# Innovation comes naturally

## Authentic textures

[spectraworksurfaces.co.uk](http://spectraworksurfaces.co.uk)

---

We believe the way a worktop feels is just as important as the way it looks. It's why we've applied three distinctive textures across the Spectra Slim-Edge range to give each of the eighteen décors a highly natural feel.

### **Slate**

Highlighted by an embossed matt finish, Slate offers a deeply textured finish.

### **Nature**

This texture provides a subtle satin feel, suggesting the raw sensation of natural stone.

### **Matt**

Providing a cool and smooth texture, matt evokes the feel of fully finished marble.

To optimise functionality, every Spectra Slim-Edge worktop, breakfast bar and island unit features the same stylish décor on the surface and the underside. The coloured edges of each décor are also shown. Please note, we have price bands A and B, where A is the lowest price and B is the highest price. This is due to different levels of décor and core colour sophistication.
